

Joint Committee for Agriculture (JC 144) (except the non-manual employees and the cultivation of flax, cultivation of hemp and primary processing of flax and/or hemp)

In accordance with European law, this document only contains provisions of collective labour agreements (CLA) which have been declared universally applicable within the meaning of Directive 96/71/EG, i.e., in Belgian Labour Law, conventional provisions made mandatory by Royal Decree, and which are criminally sanctioned in case of non-compliance.

For this reason, this document is regularly updated. It is recommended that posted workers and their employers consult the documents regularly during the period of posting. The date of the last update is indicated in the top right-hand corner.

This document is based on sectoral CLA's. The competent Joint Committee is therefore the one that can ultimately deliver a judgment about the right interpretation of its CLA's.

Only the Dutch and the French versions of the text of the decision to declare a provision universally binding (AVV Decision) has legal validity for the determination of rights and obligations.
