

Joint Committee for white-collar workers employed in the chemical industry (JC 207)

In accordance with European law, this document only contains provisions of collective labour agreements (CLA) which have been declared universally applicable within the meaning of Directive 96/71/EG, i.e., in Belgian Labour Law, conventional provisions made mandatory by Royal Decree, and which are criminally sanctioned in case of non-compliance.

For this reason, this document is regularly updated. It is recommended that posted workers and their employers consult the documents regularly during the period of posting. The date of the last update is indicated in the top right-hand corner.

This document is based on sectoral CLA's. The competent Joint Committee is therefore the one that can ultimately deliver a judgment about the right interpretation of its CLA's.

Only the Dutch and the French versions of the text of the decision to declare a provision universally binding (AVV Decision) has legal validity for the determination of rights and obligations.

*The CLA's hereafter can be consulted on the site of the FPS ELSD in Dutch or in French :

Transport of workers

Article 1. Scope of application

This collective labour agreement applies to the employers of the companies falling under the competence of the Joint committee for employees in the chemical industry and to their employees whose jobs are included in the job classification system established by this Joint committee, hereinafter referred to as "the worker(s)".

The term "worker(s)" is understood to mean: male and female workers.

Art. 2 Except where the employers themselves organize and finance the transport of their workers, the employers' contribution to the transport costs paid by the workers shall be determined, as from 1 February 2023, in accordance with the provisions of Articles 3 to 6 of this collective labour agreement.

Art. 3 Employer's contribution

§ 1. Public rail transport

With regard to the transport organised by the SNCB/NMBS, the employer's contribution in the price of the transport ticket used shall be calculated, as from 1 July 2020, on the basis of the table of lump sums set out in Article 3 of Collective agreement no. 19/9 concluded in the National Labour Council.

§ 2. Public transport other than rail transport

With regard to public transport other than rail transport, the employer's contribution in the price of the season ticket shall be calculated in accordance with the terms and conditions set out in Article 4 of Collective agreement no. 19/9 concluded in the National Labour Council.

§ 3. Combined public transport

With regard to combined public transport, the employer's contribution in the price of the ticket shall be calculated, in accordance with the terms and conditions set out in Articles 5 and 6 of Collective agreement no. 19/9 concluded in the National Labour Council.

§ 4. Public transport in the territory of another Member State

With regard to public transport in the territory of another Member State, the employer's contribution in the price of the ticket shall be calculated, in accordance with the terms and conditions set out in Article 7 of Collective agreement no. 19/9 concluded in the National Labour Council.

Impossibility to make normal use of public transport

Art. 4 If the worker cannot make normal use of public transport because of the geographical location of the company or because of the working hours, the employer's contribution is extended to workers who are forced to use a private means of transport. As from 1 February 2009, where a means of transport other than public transport is used for a distance of at least 5 km, the employer's contribution remains linked to the previous table (in accordance with the Act of 27 July 1962 establishing an employers' contribution in the loss incurred by the SNCB/NMBS as a result of the season tickets issued for manual workers and employees) on the basis of 70% on average, as set out in the appendix hereto and adjusted to the new fares on 1 February of each year (year N+1).

Art. 5 As long as the SNCB/NMBS does not publish fares for a weekly pass, the columns "weekly pass fares" and "contribution weekly pass" of the table "Employer's contribution in the use of a means of transport other than public transport" (hereto attached) shall be adapted on 1 February of each year (year N+1) (if the SNCB/NMBS publishes new fares), in the following way:

"Weekly pass rates"

The weekly pass rates of the previous year (year N) are increased, for each distance, by the increase percentage, for the same distance(s), of the monthly pass price of the current year (year N+1), rounded to 2 decimals on the basis of mathematical rounding. The increase percentage of the monthly pass price is, in turn, obtained by comparing the monthly pass rates of year N for each distance with the monthly pass rates of year N+1 for each distance (percentage rounded to 2 decimals on the basis of mathematical rounding).

"Contribution in weekly pass"

The employer's contribution in the weekly pass price is based on an average of 70%.

Art. 6 As long as the SNCB/NMBS publishes fares for monthly passes, quarterly passes and annual passes limited to 150 km, the SNCB/NMBS table will be supplemented by the fares from 151 km up to 200 km and the corresponding employer's contributions on 1 February of each year (year N+1) (if the SNCB/NMBS publishes new fares), which are obtained as follows:

"Prices from 151 km up to 200 km for the monthly, quarterly and annual pass"

The rates of the monthly pass, the quarterly pass and the annual pass limited to 150 km are supplemented by increasing the rates of the above-mentioned passes of the previous year (year N) from 151 km up to 200 km by the average increase percentage, for all distances up to 150 km, of the relevant pass price of the current year (year N+1), rounded to 2 decimals on the basis of mathematical rounding.

The average increase percentage of the above-mentioned pass price is, in turn, obtained by comparing the rates for all distances up to 150 km for the monthly, quarterly and annual pass of year N (limited to 150 km) with the rates for all distances up to 150 km for the monthly, quarterly and annual pass of year N+1 (percentage rounded to 2 decimals on the basis of mathematical rounding).

"Contribution in monthly, quarterly, annual pass"

The employer's contribution in the monthly, quarterly and annual pass is based on an average of 70%.

"Prices from 151 km up to 200 km for the weekly pass"

The rates of the weekly pass, obtained pursuant to Article 5, are supplemented by 151 km up to

200 km as follows: the rates from 151 km up to 200 km of year N are increased by the average increase percentage, for all distances up to 150 km, of the monthly pass of year N+1, as obtained in application of this article.

Art. 7 The provisions of this collective labour agreement are without prejudice to the more favourable working conditions existing in the companies.

Art. 8. Repayment period

The employer's contribution in the transport costs paid by the workers is paid at least monthly.

Art. 9 Repayment method

The employer's contribution in the transport costs paid by the workers is subject to the delivery, as the case may be, of one or more of the certificates mentioned below:

- a) A special certificate issued by the SNCB/NMBS for the train pass for transport by rail;
- b) An official document stating the distance travelled for the regular use of one or more means of public transport other than rail transport;
- (c) A statement signed by the workers certifying that they regularly use a means of transport other than those mentioned in (a) and (b) above for a distance of at least 5 km.

Art. 10. In addition to the contribution to the cost of the rail pass as provided for in this collective labour agreement, the employer shall contribute, as from 1 July 2023, to the cost of a monthly parking pass in the SNCB car parks at the rate of €25 per month (employer's cost), on presentation of supporting documents and in proportion to the pass formula.

Art. 11 Duration

This collective labour agreement is concluded for an indefinite period of time. It enters into force on 1 February 2023. (*Art. 10 is replaced from 1 July 2023 till 31 January 2024*)
